PROFILE

I'm a student who has finished his career of Business Computing Bachelor's degree at Universidad de Costa Rica in April, 2017.

Referring to the technical abilities that the profession contains, my stronger points remains in the following things: software development, Back-End (PHP, Struts 2, ASP.NET) web programming, desktop programming (Java, C, C#), management and design of databases (MySQL, SQLServer, Oracle).

On the other hand, referring to Front-End development, my stronger points remains in the utilization of HTML, CSS (basics), Bootstrap framework, JavaScript and JQuery.
